

## CATALENT ANIMAL HEALTH

Advanced delivery technology and development for better compliance. Reliable supply for peace of mind.

We bring our leading experience from launching over 100 human health products each year to solve adherence, formulation and delivery challenges in Animal Health. With the broadest range of advanced drug delivery technologies coupled with the deepest development expertise and a reliable global supply network, we help you improve the lives of animals and the people who care for them.

### We Understand the Compliance Challenge

In the development of successful animal health therapies, drug discovery is only half the battle. We have the solutions to help overcome the compliance challenge, and can tailor a delivery solution that is just right for the target species. Every molecule has a challenge. We have a solution.

#### Innovative Oral Delivery Options

Solutions for more molecules with technologies to improve animal acceptance and caregiver adherence.

ZYDIS® FAST-DISSOLVE TABLETS & GRANULES

OSDRC® OPTIDOSE™ TABLETS

RP SCHERER SOFTGEL TECHNOLOGIES

#### Enhanced Bioavailability

Improved solubility and permeability for optimized final dose forms. Integrated services from development to supply.

RP SCHERER SOFTGEL TECHNOLOGIES

OPTIMELT™ HME TECHNOLOGY

ZYDIS® NANO TECHNOLOGY

#### Tailored Sterile Drug Delivery

Improve the ease-of-use and durability of your sterile or topical formulations in customized dose formats ranging from single unit dose to large format multi-dose containers.

PRE-FILLED SYRINGES & STERILE VIALS

## Unique Technologies & Dose Forms

**Deliver your drug when it's needed, how it's needed.** As the #1 drug delivery partner in the world, we have a broad range of unique technologies to help you create the most successful treatments.

### ZYDIS® FAST-DISSOLVE TECHNOLOGY

**Disperses instantly—No Treat. No Problem.** Ideally suited to improve animal acceptance and overcome oral dosing challenges, our market-leading fast-dissolve technology will help drive brand growth through proven market advantage. Ideal for chronic therapies where compliance is a challenge, and for symptoms with sudden onset that require immediate drug delivery.

### RP SCHERER SOFTGEL TECHNOLOGIES

**The global leader in softgel technology.** With over 80 years of experience, we have successfully launched hundreds of new Rx products and produce over 80% of Rx softgel capsules worldwide and 1,000+ nutritional supplements. With deep formulation expertise, we can transform softgel into a flavored chewable dose form that pets will love and pet owners will prefer, while still taking advantage of the proven benefits of softgel technology to deliver a wide range of API and solve bioavailability challenges.

### OSDC® OPTIDOSE™ TECHNOLOGY

**Enhanced therapies through a unique single-step manufacturing process.** Our unique optimized dose delivery technology offers a broad range of combination (tablet-within-a-tablet), multiple core, dividable and multi-layer products. Ideal for poly-therapies with non-mixable API and combination therapies to reduce dose burden and improve compliance.

### BLOW/FILL/SEAL & ADVASEPT TECHNOLOGY™

**Customized unit and multi dose delivery.** With blow/fill/seal technology, we can take your sterile and non-sterile liquids and suspensions and create a customized applicator ideal for the species and purpose. With over 30 years of experience, we offer the largest scale and widest breadth of blow/fill/seal services. Our Advasept™ glass-free injection vial technology enhances the sterility, durability, and value of your sterile injectable therapies.

## Integrated Services & Reliable Supply

**Better treatments begin with development.** As the leading global provider of integrated, complex, oral dose formulation and advanced supply solutions, we can accelerate your product to market and enhance performance. And with our global network of nearly 30 sites, we ensure reliable supply around the world.

**WE ARE YOUR PARTNER IN ANIMAL HEALTH.**
